

**CONDITIONS APPLYING TO THE ALLOCATION OF 2017  
MUNICIPAL PROJECT WATER**

1. An allocation will be made each year in order that Project water will be efficiently managed by the Southeastern Colorado Water Conservancy District (“District”), acting by and through its Water Activity Enterprise and stakeholders. **The allocation will be approved at the May meeting of the Board of Directors.**
2. In the event additional water is made available to the District after the May allocation, eligible entities will be notified by mail or e-mail. The Allocation Committee and/or the Board of Directors will then review any written requests. Water allocated in a second allocation must be paid for in full within two weeks of notification of the amount allocated.
3. The Board has established a policy that applications received after the deadline, will **not** be considered. Failure to pay by the announced deadline automatically voids the approved allocation.
4. The District must notify the Bureau of Reclamation (Reclamation) before Project water can be released. The District will notify the Division Engineer that you will be submitting your schedule for delivery directly to his office.
5. Allocated Project water will be delivered by Reclamation according to the District’s Repayment Contract with Reclamation. Delivery of your Project water, subject to appropriate transit loss, can be made:
  - a) To your headgate on the Arkansas River; or
  - b) By means of your wells as an alternate point of diversion, providing said wells have been adjudicated by the Water Court; or
  - c) By exchange, if such exchange is decreed or approved by the Division Engineer in writing.
6. Project water allocated for municipal or domestic use shall be paid for in full at the time of the allocation or prior to the delivery of water and not later than June 15, 2017 or such allocation shall be available for reallocation by the District.
7. Any and all waters purchased are subject to all terms and conditions of the Contract between the Southeastern Colorado Water Conservancy District and the United States, Reclamation law, and any applicable Reclamation policies, including any policy regarding the use of Reclamation water or facilities for activities prohibited by the Controlled Substance Act of 1970, in effect for 2017.
8. Submission of an application for Project water constitutes acceptance of the price for Project water set forth on the Project Water Application, and of all the terms and conditions of the District’s current Water Allocation Policy. If you need to review a copy of any of these documents, please contact the District at (719) 948-2400 or go to [www.secwcd.org](http://www.secwcd.org), click on “Water Management” then “The Allocation of Fryingpan-Arkansas Project Water & Project Water Return Flows” and select “First Use Project Water Allocation” at the bottom of the page.
9. It is the intent of the Board of Directors that entities which do not buy Project water in any single year will not be precluded from doing so in the future, and will not be subject to prejudice thereby in the Board’s review of the applications.

**APPLICATIONS MUST BE RECEIVED BY 4:30 P.M. FRIDAY, MARCH 31, 2017**

**SOUTHEASTERN COLORADO WATER CONSERVANCY DISTRICT  
MUNICIPAL/DOMESTIC APPLICATION  
2017 FRYINGPAN-ARKANSAS PROJECT WATER**

**TO:** Southeastern Colorado Water Conservancy District Board of Directors, acting by and through its Water Activity Enterprise (“District”):

We/I, the \_\_\_\_\_ (entity), hereby request \_\_\_\_\_ acre-feet of Project water in the May 2017 allocation. We/I understand the Board of Directors of the District will allocate available waters equitably in its discretion, based upon the merits of each application, and water will be delivered in accordance with, and we accept the terms and conditions of the District’s Water Allocation Policy and of the District’s notice dated March 1, 2017, which accompanied this application. We understand and accept that we will pay the District \$9.75 per acre-foot, which includes \$7.00 per acre-foot for Project water, a \$1.50 per acre-foot for a Water Activity Enterprise (WAE) surcharge, a \$0.50 per acre-foot Safety of Dams (SOD) surcharge, and a \$0.75 per acre-foot Environmental Stewardship Surcharge (ESS). An allocation and delivery of water by the District does not create any right, title, entitlement, or other interest in Project water beyond the right to delivery of current Project water sold by the District

We expect to use \_\_\_\_\_% of our allocated Project water for well augmentation. Project water used for municipal well augmentation will be surcharged an additional \$2.60 per acre-foot because the water is considered to be totally consumed and generates no Return Flows.

In support of our request, and to comply with the need for information by the District to meet the terms and conditions of its Contract with the United States, and the Operating Principles, we submit the following information:

Water will be paid before use, and not later than June 15, 2017.

In 2017, we will serve a population of \_\_\_\_\_.

We confirm that we have sufficient non-Project water resources and that we will not deliver Fryingpan-Arkansas Project water to ineligible lands or lands outside of the boundaries of the Southeastern Colorado Water Conservancy District. Please indicate source of decreed water:

---

If supplementary information is required regarding our request, we agree to supply additional information as requested by the District.

The following is information we feel should be used by the Board of Directors in their evaluation of our request, and to set out our unusual circumstances involving our entity in 2017 (use additional pages if necessary).

---

Please do not send payment until you are notified of the amount of water approved by the Board of Directors.
